REPORT ON REVIEW OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF INVESTCORP CAPITAL PLC

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Investcorp Capital Plc, formerly known as Investcorp Capital Limited (the "Company"), as at 30 September 2023, comprising the interim condensed consolidated statement of financial position as at 30 September 2023 and the related interim condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three-month period then ended and explanatory notes. The Company's Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 *Interim Financial Reporting* (IAS 34). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other matter

The comparative amounts disclosed in the interim condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the three month period ended 30 September 2022 and the related notes were neither reviewed nor audited by us or any other auditor and accordingly, we do not express a conclusion, opinion or any other form of assurance on them.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value adjustments arise from re-measurement of investments.

Nonetheless the actual amount that is realized in a future transaction may differ from the current estimate of fair value, given the inherent uncertainty surrounding valuations of unquoted investments.

The fair values of the Group's financial assets and liabilities are not materially different from their carrying values.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

During the period July 1, 2023 to September 30, 2023, there was no transfer between levels (July 1, 2022 to September 30, 2022: nil).

The fair values of financial assets that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, the Company determines fair values using other valuation techniques which are in line with the recent annual carve-out financial statements of Capital Operations for the years ended June 30, 2023, June 30, 2022 and June 30, 2021.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

13. CYCLICALITY OF ACTIVITIES

The income of the Group is comprised predominantly of revenues generated from direct investment and capital financing services. The main components of capital financing services' revenue arise from underwriting of corporate investments and strategic capital which may not be earned evenly during the fiscal period. Furthermore, the value development cycle for a given investment usually occurs over a longer time period and the revenues generated from that process are not spread evenly over the period. Consequently, the short-term operating result may not necessarily be indicative of the long-term operating result.

14. MATERIAL ACCOUNTING POLICY INFORMATION

The interim condensed consolidated financial statements of the Group are prepared in accordance with International Financial Reporting Standards (“IFRS”).

The interim condensed consolidated financial statements are prepared and presented in United States dollars, this being the functional currency of the Group, and rounded to the nearest millions (\$millions) unless otherwise stated. Certain prior year balances have been reclassified to conform to the current year presentation. These reclassifications had no impact on the net loss or equity of the Group.

These interim condensed consolidated financial statements comprise the carve-out financial information of the capital operations for the period from July 1, 2023 to August 30, 2023 and the consolidated financial information of the Group (primarily comprising the Capital Operations) for the period from August 31, 2023 to September 30, 2023. The comparative information for period ended September 30, 2022 represents the carve-out financial information of the Capital Operations since the Group has operated as part of Investcorp until August 30, 2023 and not as a separate group.

The same accounting policies and methods of computation have been followed in these interim condensed consolidated financial statements as compared with the recent annual carve-out financial statements of Capital Operations for the years ended June 30, 2023, June 30, 2022 and June 30, 2021.
